Web Application UI Developer with 5* Years of Experience

I'm Tanmay Patel. Born in joyful city Surat, India, and currently working in Pune. I work for web - now on [HTML Technologies after pivoting from Flash Platform](#) - and have a design tooth. I'm obsessed with the current development on the cloud-based, multi-client, social, real-time apps. I'm strong believer of pleasing User Experience - who always keens to make the users' engagement with applications better. I like to spend time on web in search of inspirations, with earbuds plugged in. While not on computers - I read books or cuddle with my Galaxy SII.

Here are my skills,

My education and career so far,

JAN 13 - NOW

[I. T. Analyst](#) at Tata Consultancy Services

Joined as a developer who knows how to work with mobile using HTML Technologies. My primary role here is to create hybrid mobile apps using HTML Technologies upon PhoneGap and to explore new developments in these areas.

AUG 10 - JAN 13

[Senior Software Engineer](#) at Hurix Systems Pvt. Ltd.

Joined as a Software Engineer for Flex team, and promoted as a Senior Software Engineer, led the Flex team and HTML 5 team for a project and provided technical support and mentorship. Worked on HTML 5 based single-source, cross-platform mobile web application in conjunction with Flex-based counterpart as a part of Product Development team.

AUG 08 - AUG 10

[Flash Platform Developer](#) at Avinashi Systems Pvt. Ltd.

Worked in FlashBrain Team as a Developer on Flash Platform (Flex + Flash). Have worked there on diverse projects including AIR Desktop Application with Hardware Integration to Cloud-based and Real-time Rich Internet Applications and Web Sites built on Adobe Flash Platform. Also served as a Technical Team Lead of whole Flash Platform team.

First Class with Distinction B.E. Computer Science

from Veer Narmad South Gujarat University with 76.83%. Have got the 1st rank in my college in Computer Engineering Department during the final year.

Key Projects I've worked upon,

Dictera - Content Authoring, Management and Publishing Platform.

@ dictera.com

One of the most comprehensive, flex-based content authoring, management and cross-platform publishing platform, with preloaded templates seamlessly integrated into digital content development workflow.

SyncAcross - Everything up to date. Where ever you are.

@ beta.syncacross.com

SyncAcross automatically synchronizes your contacts, calendars and tasks and keeps them up to date. No matter what application you are using or where you are, your information is always current.

Scrubly - Quick and Easy Address Book Cleanup!

@ scrubly.com

Scrubly automatically removes duplicate contacts, merges similar contacts and resolves conflicting data inside your address book

PQProbe - Detecting power problems was never this simple!

@ enetranetsolutions.com

PQProbe is a three-phase power quality analyzer which adheres makes detecting power problems simple thereby reduce electrical operating costs, improve system reliability and efficiency.

And my Final Year Project (Submitted in partial fulfillment of B.E.)

Mix d'Pix - Image Editing Online

A Flash-based Online Image Editor RIA that lets user perform photo manipulation in their browsers.
